Campaign Overview

Client partnered with ARN's ARN, delivering a sustained radio campaign across January 2026 – September 2026. The schedule ran from 26 January 2026 to 16 September 2026 — a campaign window of 234 days — leveraging the engaged local listenership of ARN to build brand awareness and drive consistent presence in market.

Over the campaign period, ARN delivered a total of **854 spots** across **176 broadcast days**, accumulating **7h 11m 2s** of total airtime. Spot types included BMAD, ACQ Bonus, strategically scheduled across key dayparts to maximise reach and frequency. The campaign achieved strong delivery consistency and significant added value through bonus and filler placements.

The Value of Radio Advertising

Unmatched Reach & Frequency. Radio remains Australia's most trusted broadcast medium, reaching over 17 million Australians weekly. Client's campaign capitalised on this reach by securing 854 spots across 176 broadcast days — an average of 4.9 spots per day on air, the repetition that builds durable brand recall.

Targeted Local Engagement. Local radio connects businesses directly with their community. By advertising on ARN, Client spoke directly to local listeners in the station's own broadcast footprint — an audience defined by geography rather than clicks, delivering relevance no digital feed can replicate.

Credibility Through Association. Radio listeners trust the stations they tune into daily. When Client's message appears alongside trusted presenters and content, that credibility transfers to the brand — accelerating trust-building that would otherwise take years through other channels.

Exceptional Value Delivery. This campaign generated 7h 11m 2s of total airtime at a ratecard value of \$0.00, significantly exceeding the client's investment through bonus and value-added placements. Radio consistently delivers one of the highest ROI multiples in traditional media.

The Power of Audio in a Screen-Saturated World. As consumers experience digital fatigue, audio advertising cuts through by engaging listeners while they drive, work, and go about their day — moments when screens are unavailable. Client's message reached audiences in these exclusive listening windows, creating brand impressions that visual media cannot access.

Summary & Recommendations

Client's campaign with ARN's ARN delivered outstanding results across January 2026 – September 2026. A total of **854 spots** aired over **176 broadcast days**, accumulating **7h 11m 2s** of premium airtime. The campaign's total ratecard value reached **\$0.00** against a client investment of **\$0.00** (ex GST), delivering an ROI multiple of **0.00x**. Bonus and filler placements added **\$0.00** in incremental value at no additional cost.

- 1. Extend Campaign Duration.** The campaign demonstrated strong delivery consistency across 176 broadcast days. Renewing for a further 12-month cycle would allow Client to build on existing brand recall and deepen frequency among loyal listeners.
- 2. Increase Live Read Integration.** Live reads delivered by trusted presenters generate significantly higher engagement than pre-recorded spots. Introducing a live read component in the next package would add a trusted, personally-delivered endorsement to the schedule.
- 3. Expand to Additional Stations.** Extending the campaign to a second ARN station would broaden geographic and demographic reach, capturing new audience segments across the region.
- 4. Leverage Seasonal Peaks.** Scheduling increased spot weighting around Client's own peak trading periods — rather than spreading evenly across the year — would align broadcast frequency with consumer intent and drive measurable uplift in response.
