The Value of Radio Advertising

Unmatched Reach & Frequency. Radio remains Australia's most trusted broadcast medium, reaching over 17 million Australians weekly. Elders Batemans Bay's campaign capitalised on this reach by securing 677 spots across 173 broadcast days — an average of 3.9 spots per day on air, the repetition that builds durable brand recall.

Targeted Local Engagement. Local radio connects businesses directly with their community. By advertising on 2EC Bega / Power FM, Elders Batemans Bay spoke directly to local listeners in the stations' own broadcast footprint — an audience defined by geography rather than clicks, delivering relevance no digital feed can replicate.

Credibility Through Association. Radio listeners trust the stations they tune into daily. When Elders Batemans Bay's message appears alongside trusted presenters and content, that credibility transfers to the brand — accelerating trust-building that would otherwise take years through other channels.

Exceptional Value Delivery. This campaign generated 5h 38m 30s of total airtime at a ratecard value of \$35,881.00, significantly exceeding the client's investment through bonus and value-added placements. Radio consistently delivers one of the highest ROI multiples in traditional media.

The Power of Audio in a Screen-Saturated World. As consumers experience digital fatigue, audio advertising cuts through by engaging listeners while they drive, work, and go about their day — moments when screens are unavailable. Elders Batemans Bay's message reached audiences in these exclusive listening windows, creating brand impressions that visual media cannot access.

Summary & Recommendations

Elders Batemans Bay's campaign with ARN's 2EC Bega / Power FM delivered outstanding results across January 2026 – September 2026. A total of **677 spots** aired over **173 broadcast days**, accumulating **5h 38m 30s** of premium airtime. The campaign's total ratecard value reached **\$35,881.00** against a client investment of **\$15,240.00** (ex GST), delivering an ROI multiple of **2.35x**. Bonus and filler placements added **\$0.00** in incremental value at no additional cost.

- 1. Extend Campaign Duration.** The campaign demonstrated strong delivery consistency across 173 broadcast days. Renewing for a further 12-month cycle would allow Elders Batemans Bay to build on existing brand recall and deepen frequency among loyal listeners.
- 2. Increase Live Read Integration.** Live reads delivered by trusted presenters generate significantly higher engagement than pre-recorded spots. Introducing a live read component in the next package would add a trusted, personally-delivered endorsement to the schedule.
- 3. Optimise Dual-Station Split.** With 2EC Bega / Power FM both delivering strong numbers, a refined spot weighting strategy between stations — informed by listener data — could maximise cost efficiency and peak-time presence.
- 4. Leverage Seasonal Peaks.** Scheduling increased spot weighting around Elders Batemans Bay's own peak trading periods — rather than spreading evenly across the year — would align broadcast frequency with consumer intent and drive measurable uplift in response.
